

Let the power of Cloud Technology transform your business.

Keep your team connected...on task...on time...on *budget*.

The innovative Mobile System Module from DENEb Software harnesses the power of Cloud Computing, linking office and field operations with a tablet, laptop, or other hand held smart device.

System Flowchart - Mobile System

- ◆ Materials required on the job can be acquired more quickly with field-generated purchase orders.
- ◆ Instant access to order/work in progress information enhances Customer Service.
- ◆ Remote time-card entry saves office work and provides real-time Job Cost information.
- ◆ To view the complete cloud-based eDENEb Accounting and Estimating system, [click here](#).

You can rely on DENEb Software, a leader in Construction Accounting Software for more than 25 years.
