

## Spring 2018 Deneb2000 Program Updates

**Note: Programs not standard to the menu will be marked with a single asterisk (\*). These will have to be added to the menu, or replace the current program version with this new one listed below, if you desire to use them.**

The following is a list of program revisions and enhancements made to the DENE Construction Accounting and Estimating system since the December, 2016 update.

### SYSTEM

#### **System Utilities Menu: Deneb Backup/Pre-post Backups (All) (DIBACK/DIPREBCK Rev. 10.8)**

- Modified to display on the screen, the files being backed up (on the hard drive in the Deneb Directory) for the Pre-post option requested.
- For the Payroll Pre-post backup:
  1. Renamed the current Pre-post Payroll Backup to 'Pre-Time-Card Post Backup'.
  2. Added a 'Pre-Check Post Backup'.

### INVENTORY CONTROL

#### **(\*) Inventory Available by Unit Cost and Price Report (ic0405 Rev. 10.1 \*\*New\*\*)**

- New report prints the data for each item on a single line.

### JOB COST

#### **(\*) Job Description Maintenance (jc0002.add Rev. 10.10)**

- Added a new screen to input & store the Job's Address.

#### **Project Analysis By Job Report (jc0410 Rev. 10.7)**

- Enhanced by adding the Job's Address to this Report.

#### **Project Summary Report / Job Cost Project Summary Report (jc0450 Rev. 10.4)**

- Modified to correct calculation error in profit percentage calculation.
- Enhanced by adding the Job's Address to this Report.

### PAYROLL

#### **(\*) Create Direct Deposit Electronic File (pr0623mdaw Rev. 10.9)**

- Enhanced to allow the User to enter the Bank-requested ACH File Extension, if needed. Added Date and Time Stamp to the File Name. Relocate the saved file to a newly created Sub-Folder of the Deneb Directory, called 'PRACH'.

## Spring 2018 Deneb2000 Program Updates - Continued

### Optional Programs Changes (\*) To Be Selected for Additional Manual-Menu Updates - If User Selects:

#### GENERAL LEDGER

(\*) General Ledger Current Journal Input/Update (gl0230mo Rev. 10.1)

- Remove the repeated message during entries, regarding a 'Reversal in a future period'.

#### PAYROLL

(\*) Month-End Close (pr0799adaw Rev. 10.1)

- Enhanced by adding a cut-off date option. Useful if the new month is processed before clearing the previous month's data.

*The free installation of these programs by Deneb starting on Monday, February 19, 2018, can be scheduled starting Friday, February 16, 2018. Have this Update Listing available during the install to assist Deneb in modifying your menus for the selected (\*) programs.*

*Please call Penny, at our Office in Arizona at 480-836-1577 to setup the day/date for your installation.*

*Thank you,*
